Retail Management Ecosystem

XERPIUM RETAIL is a complete ERP solution for retail businesses — from multi-outlet POS, Shopee & Tokopedia marketplace, GoBiz GoFood, inventory, sales, purchase, accounting, to real-time dashboards.

POS Multi-Outlet

Multi-Cashier — Open session per cashier, shift management, automatic closing

Multi-Payment — Cash, debit, credit, QRIS, e-wallet, transfer

Offline Mode — Process transactions while offline, sync in batch when online

REST API — 11 endpoints for a standalone POS client (/xerpium/pos/*)

Stock Real-Time — Every transaction updates warehouse stock automatically

Cash Control — Opening balance, cash in/out, 3-tier closing reconciliation

Discount & Promo — Discount per item, per order, buy-1-get-1, happy hour

Marketplace Shopee & Tokopedia

Shopee Integration — Automatic sync of products, stock, prices, orders

Tokopedia Integration — Order management, status update, shipment tracking

Product Sync — Update catalog, variations, images, description from XERPIUM

Order Management — Marketplace orders → automatic sale order

Stock Sync — Real-time stock across all marketplace channels

Promo Management — Bundle deals, flash sale, voucher integration

Multi-Channel — Manage Shopee, Tokopedia, GoFood from one dashboard

GoBiz GoFood Integration

OAuth 2.0 — Secure credential management, sandbox/production env

Menu Sync — XERPIUM products → GoFood menu, variants, price, stock

Outlet Control — Open/close outlet, subscribe webhook (8 events)

Auto Order — Webhook → gobiz.order → automatic sale.order creation

Order Status — Accept, mark ready, reject via API

QRIS Payment — Create QRIS transaction for GoFood payments

Promo SKU — Create price promos per SKU, refresh status

API Logging — Full audit trail of every request/response

POS API

REST Endpoints — /ping, /configs, /products, /customers, /session, /payment_methods

Sync Orders — Batch upload of offline transactions to the server

Set Stock — Real-time stock update from POS client

Close Session — 3-tier fallback: normal → force with balancing → hard close

CORS Ready — Full cross-origin support for web/mobile clients

Sales Management

Sale Order — Quotation → SO → Invoice — multi-channel

Customer Management — Segmentation, history, loyalty points

Pricing — Price list per customer tier, volume discount

E-Commerce — Website sales integration, customer portal

Credit Limit — Automatic limit per customer

Purchase & Procurement

Purchase Order — RFQ → PO → Receipt → Vendor Bill

Vendor Management — Rating, payment terms, lead time

Auto Reorder — Reorder rules based on min/max stock

Drop Ship — Direct delivery from supplier to customer

Three-Way Match — PO/Receipt/Invoice matching

Inventory Management

Multi-Warehouse — Central warehouse, branches, consignment, dropship

Stock Movement — Receipt, delivery, internal transfer, adjustment

Valuation — FIFO, Average, real-time stock value

Lot / Serial — Batch tracking, expiry date, traceability

Barcode — Scanning for receiving, picking, packing, shipping

Cycle Count — Periodic stocktake, automatic variance

Accounting & Finance

Chart of Accounts — 113 retail-specific accounts, 32 account groups

PPN 11% — Output/input VAT, prepaid VAT

AR & AP — Receivable/payable aging, dunning, reconciliation

Bank & Cash — Bank reconciliation, petty cash, transfers

Fiscal Position — Retail exempt mapping for VAT

Multi-Currency — Multi-currency transactions, auto exchange rate

HR & Payroll

Employee — Employee data, ID number, BPJS, tax ID

Attendance — Check-in/out, shift, overtime

Payroll — Basic salary, allowances, deductions, BPJS, income tax Art. 21

Commission — Sales commission per transaction/product

Leave — Leave, permission, sick — approval workflow

E-Commerce & Website

Website Builder — Online store with Liquid Glass theme

Product Catalog — Category, variations, images, description

Cart & Checkout — Cart, address, courier, payment

Payment Gateway — Midtrans, Xendit, QRIS, bank transfer

Customer Portal — Order history, status, invoice download

Dashboard Studio

14 KPI Widgets — 8 tiles + 6 charts for retail analytics

Revenue Trend — 12-month revenue area chart

Top Products — Horizontal bar top 10 products

Revenue by Category — Doughnut chart per category

Low Stock Alert — List of products with stock ≤ 5

AI Generate — Natural language → complete dashboard

AI Assistant

Natural Language — "What are today's sales?" "Create an invoice"

Data Lookup — Search products, check stock, view customer history

Report Generation — Sales and profit & loss reports via chat

Automated Tasks — Create POS order, post journal entries

100+ Tools — Sales, purchase, inventory, accounting, HR

Multilingual — EN, ID, ES, FR, DE, PT, ZH, JA, KO, RU, AR

Retail Chart of Accounts

113 retail-specific accounts, 32 account groups — from cash to marketplace revenue. Balance Sheet, P&L, Trial Balance per Indonesian GAAP (PSAK).

Financial Reports

Balance Sheet — Current assets (cash, receivables, inventory), fixed assets (display, POS, renovation), liabilities, equity
